# PREFACE.

The present volume is number fourteen, part two, of the Alphabetical Index of the Births, Marriages and Deaths recorded in the City of Providence, and is the first of a set of three volumes to contain an index of the births, marriages and deaths recorded in this city for the years 1901 to 1910, inclusive.

It is an index of the births recorded for the above named years. It is printed from a card index which is made as the births are recorded.

The record of births in Providence is, as in all cities of the United States, not complete, and it also contains many errors. The cause of these defects, and the reason why the same name often appears with different spellings, are explained in the preface of volume IX.

The following table shows the number of births recorded each year from 1901 to 1910, inclusive, and also the birth rate, i. e., the number of living born to each 1,000 of the population:

Year.	Living Children	Stillborn.	Total.	Living Birth Rate Per 1,000 of population.
1901	4,694	216	4,910	26.37
1902	4,746	216	4,962	26.22
1903	4,935	252	5,187	26.67
1904	5,158	260	5,418	26.72
1905	5,210	215	5,425	26.22
1906	5,456	222	5,678	26.87
1907	5,876	259	6,135	28.25
1908	5,832	269	6,101	27.38
1909	5,698	269	5,967	25.84
1910	5,727	253	5,980	25.45

The records from which the above table was made are contained in the bound volumes of Records of Births, and extend from page 125 of volume XVII to page 152, volume XX.

The following table shows the number of names in the present volume, parts one and two, under each letter of the alphabet:

A.....	1,806	J.....	1,063	S.....	4,956
B.....	4,702	K.....	1,782	T.....	1,945
C.....	5,650	L.....	2,900	U.....	88
D.....	4,378	M.....	6,806	V.....	727
E.....	648	N.....	851	W.....	2,183
F.....	2,707	O.....	1,087	X.....	6
G.....	3,128	P.....	3,149	Y.....	121
H.....	2,918	Q.....	209	Z.....	289
I.....	394	R.....	2,877		
Total.....					57,370

The number of names in the above table does not correspond with the number in the preceding table, owing to the fact that additions have been made to the records since the publication of the Registration Reports from which the data in the first table were taken, and that names are sometimes entered under different spellings, and finally because since 1891 children born to parents temporarily away from the city have not been reckoned under the births in the Registration Reports, although they have been entered upon the records.
